

2017 Canadian Inland Ports Conference

Arènso Bakker
Port Property Specialist
StigConsult, Netherlands

Arènso is partner of Stig, a Dutch company providing development concepts and development skills for ports, corridors and economic zones.

Before co-founding Stig Arènso was director development and concessions at Port of Rotterdam. He also worked for DHL in operations and site integration during the merge, after the takeover by German Post. Arènso has a background in both logistic engineering (Maritime Academy Amsterdam) and holds a master degree in economics with a specialization in real estate, property and area development.

He works internationally on concepts and developments in ports, economic zones and concession-areas. Further he is a registered valuer. His knowledge of property-exploitations, landlord operations, land lease and concessions is a solid ground for complex valuations.

In the past two years Arènso worked on an assignment for the Panama Canal Authority for a special economic zone development along the canal. Goal of this project is to enable economic growth in Panama based on value added activities. Earlier assignments have been in Oman, South Africa, Egypt, Colombia, Trinidad, Malaysia and all over Europe.

To assure certified standards and ethics Arènso is a member with the Royal Institution of Chartered Surveyors. This is the world's leading professional body for qualifications and standards in land, property and construction and is a recognized mark of property professionalism (www.rics.org).
